

Winston Weaver Fire Response and Lessons Learned

- This presentation session provided an overview of response efforts associated with the January 31st, 2022 large scale fire at the Winston Weaver Fertilized Plant in Winston-Salem, North Carolina.....as well as a look into “lessons learned” as a result of this event.
- Because of ongoing legal concerns associated with the event, session presentation slides are not available at this time.
- For information on the material discussed during the presentation; please contact August Vernon at either:
